PROFESSIONAL SUMMARY

Computer Science student at St. Edward's University with a 4.0 GPA and hands-on experience building and shipping full-stack web and mobile applications. Completed a software engineering internship developing enterprise software features and multilingual APIs. Passionate about building user-focused products with real-world impact.

EDUCATION

St. Edward's University

Bachelor of Science in Computer Science (Honors). GPA: 4.0 / 4.0.

Austin, TX

Expected 2029

EXPERIENCE

Software Engineering Intern

SoftClans Technologies

Jan 2025 – May 2025

Nairobi, Kenya

- Built frontend and backend features using Laravel and Sencha Ext JS for enterprise software systems.
- Developed a multilingual translation API enabling users to dynamically switch application languages.
- Contributed to design discussions, debugging, testing, and feature implementation across the full development lifecycle.

PROJECTS

AmericaBound

React, JavaScript

- Built and deployed a platform providing information about US universities and colleges to help international students search for schools.
- Released the initial mobile application on the Google Play Store, achieving 200+ downloads before expanding to a web platform.
- Grew the website to 3,000+ visits through user-focused design and content organization.

Uber Clone

React, Laravel, OpenStreetMap, PayPal API

- Developed a full-stack ride-hailing application supporting ride booking, route visualization, and payment processing.
- Built RESTful backend services in Laravel to manage users, rides, and transaction workflows.

EyeScroll: AI-Powered Android Navigation

Kotlin, Jetpack Compose, CameraX, MediaPipe

- Developed an Android application enabling hands-free scrolling using real-time eye gesture recognition.
- Implemented on-device computer vision with MediaPipe Face Landmarker and CameraX for low-latency facial landmark detection.
- Integrated Android Accessibility Services to perform system-wide scrolling across third-party applications.

SKILLS

Languages: Python, Java, JavaScript, PHP, SQL, Rust

Frameworks & Libraries: React, Next.js, Laravel, Node.js, React Native
