

PRINCE KUVENGA

Austin, TX | kuvengaprince@gmail.com | 737-396-8935
GitHub: github.com/princekrazy | linkedin.com/in/prince-kuvenga

EDUCATION

St. Edward's University — Bachelor of Science in Computer Science (Honors)
Expected Graduation: 2029
GPA: **4.0 / 4.0**

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, PHP, SQL

Frameworks & Libraries: React, Next.js, Laravel, Node.js, React Native, Rust

PROJECTS

AmericaBound | React, JavaScript

- Built and deployed a platform providing information about US universities and colleges aimed at aiding international students in searching for a school.
- Released the initial mobile application on the Google Play Store, achieving **200+ downloads** before expanding to a web platform.
- Grew the website to **3,000+ visits** through user-focused design and content organization.

Uber Clone | React, Laravel, OpenStreetMap, PayPal API

- Developed a full-stack ride-hailing application supporting ride booking, route visualization, and payment processing.
- Built RESTful backend services in Laravel to manage users, rides, and transaction workflows.

Shona AI Translation API

- **REST API for text translation built with FastAPI**
- **Stores translations in PostgreSQL**
- **Deployed on Render with GitHub-based CI/CD**

RELEVANT EXPERIENCE

Software Engineering Intern | SoftClans Technologies

Nairobi, Kenya | Jan 2025 – May 2025

- Developed frontend and backend functionality using Laravel and Sencha Ext JS for enterprise software systems.
- Built a multilingual translation API enabling users to dynamically switch application languages.
- Participated in design discussions, debugging, testing, and feature implementation throughout the development lifecycle.
